COMPACT MAX Portable Reader for Animal Identification

COMPACT MAX reads FDX-B (ISO) and FDX-A/Fecava microchips, featuring best in class reading distances in a pocket size dimension.

COMPACT MAX has an ergonomic design and an intuitive icon-based interface, making the reader perfect for animal identification, from puppies and kittens to seniors.

COMPACT MAX can read up to 4'000 microchip codes and can easily transfer data to your PC via USB.

Highlights

- Best-in-class reading performances, able to read FDX-B and FDX-A/Fecava microchips
- Pocket size and ergonomic design
- Bright color display
- Up to 4'000 microchip codes stored in the internal memory
- Easy data transfer to a PC

Dimensions	16 x 80 x 2 cm		**Interfaces**	USB (Mass storage, VCP and Keyboard wedge)
Weight	170 g		**Transmission frequency**	134.2 KHz
Housing material	ABS		**Memory**	Up to 4'000 codes
Operating temperature	From −5°C to +55°C, 95% RH, non condensing		**Typical reading distance**	FDX-B: up to 16 cm FDX-A/FECAVA: up to 8 cm
Charging temperature	From +5°C to +45°C, 95% RH, non condensing		**Certifications**	CE, FCC
Storage temperature	From −20°C to +65°C, 95% RH, non condensing		**Standards**	ISO 11784/5
Battery	Li-ion polymer 3.7V (1250 mAh)
